

Inventaire des archives de la S.A. des charbonnages de la Grande Bacnure - Index des noms de membres du personnel (ouvriers, employés, cadres) et autres en relation avec la S.A.

Par Walthère Franssen

Inventaires :

Les archives du Fonds WF-GB ont fait l'objet de 2 inventaires : Un inventaire numérique et un index nominatif.

L'inventaire numérique suit une numérotation (de 1 à 46) donnée à chaque document ou ensemble de documents. Les deux premiers chiffres de la numérotation sont donnés à la farde contenant des documents, les deux ou trois chiffres suivant sont relatifs au document.

L'index nominatif alphabétique des noms de personnes reprend les noms des personnes citées dans les documents des archives du Fonds WF. Ces noms concernent principalement les noms des membres du personnel et autres en relation avec les sièges de Gérard-Cloes (situé à Bernalmont) et de la Petite Bacnure (situé à La Préalles) et du siège social et commercial (situé à Coronmeuse) de la S.A. des Charbonnages de la Grande Bacnure.

L'orthographe des noms et prénoms est reprise telle que se trouvant dans les archives.

Dans la mesure où ces détails figurent dans les archives, cet index donne pour chaque personne: - le Nom et les prénoms - (la Date de naissance ou l'âge) – (la Nationalité) – (Les noms des charbonnages herstaliens employeurs autres que la Grande Bacnure et situés sur le territoire de la ville de Herstal) - (le nom du Charbonnage (GB - Grande Bacnure) suivi du ou des noms du siège employeur (GC Gérard Cloes, PB Petite Bacnure, Cor Coronmeuse) - (le lieu de travail: F Fond ou S Surface) – (le N° de lampe ou de cachet) – (la ou une des Professions exercées au charb.) – (L'année ou la première et la dernière année où la personne citée dans les documents d'archives est présente au charbonnage) - // > ces données sont suivies de la référence du ou des documents d'archives où la personne est citée.

La signification des abréviations utilisées dans ce fichier est donnée en fin d'inventaire.

Cet index est établi à partir des archives WF-GB, WF-As.Ch.Lg, WF-Bat, WF-WF, WF-ABHH et WF-HC.

Avertissement: La rédaction de cet index peut comporter des erreurs. Outre les fautes de transcription, notamment faite à partir de listes manuscrites, il est possible que deux ou plusieurs personnes homonymes se trouvent reprises sous le nom d'une seule personne. Il est aussi possible qu'une même personne soit citée plusieurs fois, soit sous différents noms orthographiés différemment, soit sous le même nom avec un numéro de cachet différent. Au charbonnage, lors de son embauche, chaque ouvrier reçoit un numéro personnel ; toutefois, s'il passe d'un emploi à la Surface à un emploi au Fond ou inversement, il se voit attribuer un autre numéro, de même s'il accède à la maîtrise, ou lorsqu'il est réembauché après avoir quitté le charbonnage ou avoir été sorti des listes du personnel après une absence non justifiée.

Toute remarques ou propositions de correction concernant cette liste peut être faite à : walthere.franssen@gmail.com

Liste de Prisonniers de Guerre Allemands de la S.A. nommés dans les archives WF et ayant travaillé pour la plupart aux Charbonnages de la Grande Bacnure.

Extrait de l'Index nominatif des membres du personnel de la S.A. des Charbonnages de la Grande Bacnure.

WICHMANN Heinrich (PG DE)(GB PB)(1947) Né en juin 1927, tout en étant étudiant en Allemagne Heinrich Wichman a reçu de 1943 à mars 1944 l'écolage FLAK (Défense Anti aérienne). En juin 1944, il est appelé au service du travail du Reich. En octobre 1944, il est recruté comme militaire et envoyé au front de l'Est. En janvier 1945, blessé par plusieurs éclats de grenade, il est transporté de Stettin (aujourd'hui en Pologne) vers Flensburg (à la frontière Danoise, près de la mer Baltique). En congé de convalescence, il est fait prisonnier par les américains à Bitterfeld, il s'évade et est repris après 5 jours. Cette fois Prisonnier de Guerre des Américains, il échoue dans le grand camp de prisonnier de Bad Kreuznacht (Onder Nahe). Ce fut un temps très pénible, 250.000 prisonniers avaient faim, soif et végétaient en plein air dans ce camp tenu par les américains, c'est là que je vis le jour de la capitulation le 8/5/1945. Pour échapper à ces mauvaises conditions de vie il a volontairement accepté de venir travailler en Belgique. Il arriva en Belgique, près de Waterloo dans un camp gardé par les anglais, il y avait de l'ordre mais la nourriture était insuffisante. Après un contrôle médical à Mons où il fut reconnu apte au travail dans les mines, il arriva aux environs du 20/11/1945 au Camp de Vottem gardé par des soldats belges. Dans la mine il a fraternisé

rapidement avec des ouvriers communistes polonais et belges avec lesquels ils chantaient l'internationale. Dans le fond, il fut affecté au transport. Avec l'argent qu'il recevait pour son travail il achetait des cigarettes.

(Témoignage oral et écrit de H. WICHMANN reçu par W.F. en février 1991).
